TEJ Linux Offline Kit

Printable Quick Start

1. Get the kit

- No Internet: copy TEJ-Linux-Offline-Kit.zip from the class USB drive to Downloads.
- Internet available: scan the code or use the website to download the same ZIP file.
- Extract the ZIP. Keep every file and folder together.

andrewandrade.ca/tech-edu-resources/tej3-4/linux-operating-systems/offline-kit/

2. Open the instructions

- Open the extracted TEJ-Linux-Offline-Kit folder.
- Double-click START-HERE.html. It opens in your browser without Internet.
- Choose Computer Detective or Bashcrawl. Open the ODT in LibreOffice, or use the PDF and matching TXT answer sheet.

3. Prepare Bashcrawl

- Copy the complete bashcrawl folder from the extracted kit.
- Open Home in the Files app. Create a folder named Games. Paste bashcrawl inside Games.
- Open Terminal in Linux Mint by pressing Ctrl + Alt + T. This works in the installed system and in the live USB session.

Using another device?

The website has setup instructions for Windows, Mac, Chromebook, Linux, Android, and iPhone. A phone is slower and more difficult than a computer, but it is possible.

TEJ Linux Offline Kit

Printable Quick Start

4. Start Bashcrawl

Complete each step separately. Type only the command shown, then press Enter. Wait for it to finish before moving to the next step. Do not type the $ prompt symbol.

Step 1	`cd ~/Games/bashcrawl/entrance`	**then press Enter**
	Go to the Bashcrawl entrance folder.	

Step 2	`cat scroll`	**then press Enter**
	Read the instructions in the entrance room.	

5. Commands you will use while playing

Type one command, press Enter, read the result, and then decide what to do next.

`ls`	List what is in the current room.
`pwd`	Show the folder you are currently in.
`cat scroll`	Read the scroll in the current room.
`cd cellar`	Example: enter a room named cellar.
`cd ..`	Go back one folder or room.
`ls -a`	List everything, including hidden items.

Important: cellar is only an example. Replace cellar with the room name that you see after running ls. Complete the answer sheet, save your screenshots, and submit your work when Internet is available.
